

# EETC Membership Application

2007

## **Our Membership**

Membership in any organization means a belief in the goals and objectives of that organization. Membership in the Equipment & Engine Training Council is no different. The dollars you spend on membership go towards the goal that you believe in; namely, attracting and educating service technicians for the power equipment industry. Our emphasis, as you know, is on education. That means that we are creating and setting the standards for excellence in service through accreditation of schools, student scholarships, and certifying technicians. When a dealer hires a certified technician, it is a reflection on you. It is one step forward in alleviating our concern for the industry. It doesn't matter how much your membership costs because the end result is that your belief in the goal is successful.

Today, there are over 650 people who believe in the EETC. The number grows daily. With our successful dealer brochure, we have increased dealer members from 55 to over 290. As we all know, dealers are the front line of our industry--the primary employers of our service technicians. Their membership in EETC is critical to understanding what we are all about.

Each new membership we receive, whether it is a manufacturer, distributor, dealer, association or school, provides us with the economic tool to continue our already successful work. We are continuing our education goals by offering training programs to help all customer support personnel. In 2008 we will kick off new training sessions on our EETC website - [www.eetc.org](http://www.eetc.org) which will serve manufacturer and distributor service and customer care staff as well as ope dealers. Because we are a non-profit association, your membership fee will go toward serving the power equipment industry.

Thank you.

## MEMBERSHIP FORM

If you are not a member of the Equipment & Engine Training Council, it is very simple to join. Refer to page three of this membership form to determine your membership fee. If you have any questions about your membership or category, contact Jim Roche at (262) 367-6700. Please complete the form below and submit a completed copy of this application form and your payment to:

### **Yearly Membership Fees**

Manufacturers	\$1,700
Distributors	\$850
Dealers	\$60
Vocational High Schools	\$100
Vocational/Technical Schools	\$250
Colleges & Universities	\$250
Associations	\$225
Member Associates	\$225

### **Donations**

All of our members who choose to go over and above the membership fees receive our utmost respect and thanks. Some members will donate money toward our student scholarship fund while others will donate product to our accredited schools. These special gifts enable the EETC to accelerate our efforts to reduce the shortage of technicians.
